Dr. J. Lederberg
Department of Genetics
The University of Wisconsin
Madison 6, Wisconsin

Dear Doctor Lederberg:

Do you have a culture of Escherichia coli strain K-12S (the indicator strain for bacteriophage lambda) that you would be willing to deposit in our Collection? The A. T. C. C. is collecting bacteriophage systems. We already have the lysogenic K-12 strain of E. coli; however, we would like to add to our Collection the indicator strain for phage lambda if you have one which you would send us.

Sincerely yours,

William Arthur Clark
